BLOCKSIZE

OPERATING RELIABLE NODE INFRASTRUCTURE

BLOCKSIZE is supporting a wide array of blockchain ecosystems, protocols, and networks by maintaining cutting-edge node infrastructure for validating and securing DeFi protocols. Among other things, BLOCKSIZE is providing nodes and on-chain data to key Decentralized Oracle Networks (DONs), such as:

Chainlink   **PYTH**   **API3**

BLOCKSIZE has experienced tech and DeFi experts bringing German excellence in engineering, compliance, and stability to blockchain communities worldwide. Contact BLOCKSIZE if you want to leverage experience and high-quality services to bring your data on-chain or enhance decentralization, robustness, and security of your blockchain ecosystem.
